## NOTIFICATIONS

You choose what communications you would like to receive and the frequency. Changing the default setting for announcements to 'daily digest email' will limit the number of emails to your inbox, but you will receive push notifications in the app. Choosing 'none' means no emails and no push notifications in the app, but all info is viewable by logging onto the site or app. **Weekly Digests of Upcoming Events** gives a summary of everything coming up in the week ahead in a single email. **Parent Education** refers to parenting podcasts created by Konstella with parents on the platform. They can be listened to for a small fee (usually \$5 each).

## **App/Phone notifications**

iPhone

Go into settings on your phone

Scroll down to notifications and tap

Scroll down to the Konstella app and tap

If you want to get notifications in the app turn on 'allow notifications'

Android and newer iPhones will have similar options
